# Our Story

### History

PT. INAX International Founded in 1978, INA is the largest ceramic sanitary ware manufacturer in Indonesia, located in Semarang, Central Java, one of Indonesia's most strategic locations along with international seaports and airports.

### Finest Raw Materials

Crafted from top-tier materials meticulously sourced from esteemed suppliers, our ceramic products embody excellence. Through a rigorous selection and testing process, we ensure that every component meets our exacting standards of quality, durability, and performance.

### Finest Craftmanship

The most innovative and efficient production methods are at the heart of our operations, meticulously tuned to ensure our products meet the highest standards of quality, durability, and performance. Our staff of incredibly experienced and accomplished craftsmen complement these cutting-edge processes, infusing each item with a touch of timeless elegance and quality.

### Highest Standards of Quality

Every stage of our procedure involves stringent quality inspections prior to packaging. Only products that fulfill the highest quality criteria reach our valued consumers.

### Large Scale Manufacturing

Spanning over 70 hectares of carefully designed industrial estate, PT. INAX International showcases state-of-the-art technology in sanitary ware production. Our commitment to excellence is unwavering as we uphold the highest standards of safety, quality, and environmental sustainability throughout our operations.

### Designed with Passion

Our products are born from a fusion of the latest trends and groundbreaking innovations, resulting in designs that are not only highly functional and easy to clean but also captivating to behold. We prioritise aesthetics without compromising on functionality, ensuring an experience that delights both the eyes and the senses.

### World-class Team

Our leadership team at INA consists of seasoned worldwide specialists with many years of experience in the ceramic sanitary business. Our management team, with diverse experiences and a proven track record of worldwide success, is committed to guiding the firm toward continued growth and excellence.

### Sustainability

Sustainability and social responsibility are not merely projects at PT. INAX International; they are fundamental to who we are. We've always prioritised environmentally responsible operations and our employees' well-being. Our unrelenting dedication to continual improvement motivates us to implement sustainable initiatives and responsible sourcing, which benefit the welfare, health, and safety of all parties concerned.
